NEW ALL METAL TV LAMPS

Distinctive . . . Appealing . . . Timely

These highly decorative and functional statues are needed, wanted, demanded by every television owner who seeks the crowning touch for the television set. The beautiful hand cast metal bust is polished and buffed, then finished in a baked enamel or bronze plate. The rich contrasting brass finished ornaments enhance the quality and unity of the design.

Notice in the construction that the metal reflector shade has been cut at an angle to eliminate any back-lash of light . . . thus giving A NON-GLOW, NON-GLARE, BALANCED INDIRECT LIGHT FOR TELEVIEWING! All electrical parts and fittings are Underwriter's approved.
